3

1 PROCEEDINGS 2 (11:25 a.m.) CHIEF JUSTICE ROBERTS: We'll hear 3 argument next in Case 18-1501, Liu versus the 4 5 Securities and Exchange Commission. Mr. Rapawy. 6 7 ORAL ARGUMENT OF GREGORY G. RAPAWY ON BEHALF OF THE PETITIONERS 8 9 MR. RAPAWY: Mr. Chief Justice, and 10 may it please the Court: 11 SEC disgorgement orders compel a 12 payment to the Treasury as a consequence for 13 violation of a public law. An order like that 14 is a penalty, as this Court's unanimous decision 15 in Kokesh makes clear. 16 A penalty must be authorized by 17 statute. So must any action by an 18 administrative agency. There is no statutory 19 authority for the SEC to seek disgorgement 20 orders from a federal court and, therefore, it 21 cannot. 2.2 I have three main points to make this 23 morning. First, the text, structure, and 24 context of the securities laws offer a 25 straightforward route to reversal. Congress has

4

created for SEC court actions a tiered system of
 civil money penalties that does not include
 disgorgement.

4 Congress has also given the SEC 5 authority for an order requiring accounting and 6 disgorgement, using those very words, in an --7 in an administrative proceeding but no similar 8 authority for court actions.

9 And Congress has given other agencies 10 clear textual authority for judicial 11 disgorgement orders. Using traditional tools of 12 statutory construction, the result is clear: 13 The SEC can seek the authorized penalties but no 14 others.

Second, the statute's allowance for equitable relief does not help the SEC because penalties are not equitable relief. That has been the law for centuries.

19 There is no principal distinction 20 between the characteristics that make SEC 21 disgorgement a penalty under Kokesh and those 22 that make it a penalty under the old equity 23 rule. Its purpose is to punish disobedience of 24 a public law. Any return of money or property 25 to those injured by the violation is

5

discretionary at best and often never happens. 1 2 Third, the phrase "equitable relief," 3 enacted as part of Sarbanes-Oxley in 2002, did 4 not ratify circuit court cases that had approved 5 SEC disgorgement. Those cases, beginning with Texas Gulf Sulphur, did not look to statutory 6 7 text. They certainly did not settle the meaning 8 of text that did not even exist yet. 9 Instead, we have here only 10 congressional silence, and silence does not give an agency any authority to act, much less the 11 authority to punish. 12 13 JUSTICE GINSBURG: Mr. Rapawy, you 14 started out by saying Kokesh labeled this a 15 penalty and equity doesn't enforce penalties and 16 that's it. 17 But Kokesh was in a specific context. 18 It said, for statute of limitations purposes, it is a penalty. For a different purpose, it need 19 20 not be characterized as -- as a penalty for 21 determining whether the fraudster can retain the profits of the fraud. That's something 22 different. 23 24 But the notion that because we 25 categorize it in one context, disgorgement, as a

penalty, does not necessarily carry over to 1 2 another. There was a great legal scholar who has been often quoted by this Court, Walter 3 4 Wheeler Cook, who said the tendency to assume 5 that a word appearing in two or more legal contexts and so in connection with more than one 6 purpose -- one purpose is statute of 7 8 limitations, another is depriving the fraudster of the profits of the fraud -- to assume that 9 that characterization in one context carries 10 11 over to another is a notion that has all the 12 tenacity of original sin and must constantly be 13 guarded against.

14 So all Kokesh did was say, for statute 15 of limitations purposes, this is a penalty. It 16 did not say -- in fact, it was specific in 17 footnoting that it was not saying that in every 18 context it is a penalty.

MR. RAPAWY: Justice Ginsburg, I certainly agree that this Court reserved this question in Kokesh in Footnote 3. And my argument is not that the holding of that case resolves this case but that the reasoning of that case can't effectively been -- be distinguished from this case. б

And my reasons for saying that, the 1 issues to which this Court looked in Kokesh in 2 determining whether SEC disgorgement is a 3 4 penalty track the reason or the -- the 5 justifications or the -- the cases in which 6 equity said it would not enforce penalties. 7 The -- the most important of those is Kokesh's second reason, which is the -- that --8 9 it found that SEC disgorgement has primarily a 10 punitive purpose, and that goes directly to the core of the equity distinction. 11 JUSTICE GINSBURG: Why is it -- is 12 13 that so? Is it not an equitable principle that no one should be allowed to profit from his own 14 15 wrong? That's not an equitable principle? 16 That is certainly an MR. RAPAWY: 17 equitable principle, Your Honor. However, it is -- it is also an equitable principle that --18 that a court of equity will not inflict a 19 20 penalty; it will make the person no worse off 21 than they were had they not committed the wrong. 2.2 And SEC disgorgement is a penalty 23 within the meaning of that rule because, as the 24 Court stated in Kokesh, it does, in fact, it 25 frequently does, did in this case, leave the

wrongdoer worse off than if the wrong had never
 been committed.

3 JUSTICE ALITO: But is your argument 4 that disgorgement is never possible or that 5 disgorgement has been interpreted too broadly by 6 the courts?

7 Suppose it were limited to net profits 8 and suppose every effort was made to return the 9 money to the victims of the fraud. Would that 10 not fall within a traditional form of equitable 11 relief?

MR. RAPAWY: I think it still would not, Your Honor, and the reason is that the -the traditional form of equitable relief to which the government has drawn an analogy is the accounting, and an accounting did have those characteristics that Your Honor has stated.

18 But it also had the characteristic 19 that it was typically available only in cases 20 involving a breach of fiduciary duty. Now there 21 are instances in which it was applied outside breaches of fiduciary duty, but I believe that 22 23 in those cases it would be properly 24 characterized as part of the equity court's 25 ancillary jurisdiction. And a remedy that was

9

only within the ancillary jurisdiction of a 1 2 court of equity would not be a remedy that was typically available in equity, as this Court has 3 4 interpreted that phrase. 5 JUSTICE GINSBURG: What -- what do you 6 mean by "ancillary"? 7 MR. RAPAWY: Ancillary jurisdiction meaning that once a court had some other 8 independent ground of equitable jurisdiction 9 10 over the case -- and this is true of the old patent and copyright cases -- it might then to 11 12 go on -- go on to award an accounting in order 13 to afford complete relief. 14 JUSTICE SOTOMAYOR: How about the 15 fraud cases in which it was granted? 16 MR. RAPAWY: So I believe that the 17 fraud cases -- and we do address this in our --18 in our reply, Your Honor -- I believe the fraud cases all -- that the professors -- I assume 19 20 you're referring to the fraud cases cited in 21 Professor Laycock's brief, and I think those all involve fiduciary relationships. 22 JUSTICE SOTOMAYOR: But let me -- let 23 24 me go back to that answer you gave. There is a 25 statute here that entitles the court to give

10

equitable relief that may be appropriate or 1 2 necessary for the benefit of investors. 3 I'm not sure why this doesn't provide 4 ancillary jurisdiction in the manner that you've 5 spoken about, assuming, as Justice Alito has 6 just stated, that the accounting is only for net 7 profits that are given to the actual people 8 injured. 9 We -- we have other -- I recognize the

10 multitude of questions, joint and several 11 liability, recovery for net profits of people, 12 tippees and things like that. Putting all of 13 that aside, just a simple straightforward case 14 of net profits from investors who are actually 15 injured.

16 MR. RAPAWY: So I have -- I have two 17 answers to that, Justice Sotomayor, if I may. 18 And one -- the first answer is that precisely 19 because of the complexities that your question 20 recognizes, the better course would be to say 21 this remedy that the SEC has sought here, SEC 22 disgorgement, which does not have a historical parallel, does not exist. And if the S --23 24 JUSTICE SOTOMAYOR: So why is it okay 25 in the administrative process and in all the

1 other laws where you say disgorgement is 2 referenced? You're making an argument that there should never, ever be disgorgement --3 4 MR. RAPAWY: Not at all, Your Honor. 5 JUSTICE SOTOMAYOR: -- in any statute, 6 because it's undefined in some way outside the 7 common law? MR. RAPAWY: Not at all, Your Honor. 8 9 I am saying that in those con -- when Congress 10 says disgorgement, then it is the Court's task to figure out what does disgorgement mean. 11 12 And perhaps in doing so, it would look 13 at that history and say, well, it would -- you 14 know, the money has to go back to the 15 individuals and it can be no more than -- than the amount of the gains and so forth. 16 17 But, in a case where Congress has not 18 said disgorgement, and they did not say so here, I think the Court should hesitate to read it 19 20 into a general provision for equitable relief. 21 JUSTICE KAVANAUGH: If we --2.2 MR. RAPAWY: And my --23 JUSTICE KAVANAUGH: Keep going, sorry. 24 MR. RAPAWY: And my second point in 25 connection with that is that the reason not to

12

read equitable relief to encompass ancillary 1 2 jurisdiction is the same one this Court gave in Great-West. And that is that if you -- because 3 4 an equity court having jurisdiction of the case 5 could award any kind of relief using its 6 ancillary jurisdiction, including even 7 compensatory or punitive damages, if you were to read the term that broadly, it would be no 8 limitation at all. 9 10 JUSTICE KAVANAUGH: If we were not to 11 agree with you on this last point, what do you 12 then say to Justice Alito's two conditions, net 13 profits, returned to victims?

MR. RAPAWY: If you were not to agree with me on that point, then those are the -- the primary inconsistencies that we've identified, we've established with regard to historical remedy.

I do think that the remedy that was applied here, that the SEC sought here, was -was clearly a penalty and clearly inconsistent with Kokesh and that the -- there -- there is an important background principle that --

24 JUSTICE KAVANAUGH: And that's because 25 it was not limited to net profits and was not

23

returned to the victims, at least not necessarily? MR. RAPAWY: Yes. And I would also say because it -- it doesn't have the historical parallel because there was no fiduciary duty pleaded or proved, but --JUSTICE KAVANAUGH: Right. That's the MR. RAPAWY: -- Your Honor has questioned that point. JUSTICE KAVANAUGH: Yeah. MR. RAPAWY: And --JUSTICE KAVANAUGH: You may be right or wrong on that point. I just wanted to isolate your answer just to be --MR. RAPAWY: Okay. So --JUSTICE KAVANAUGH: -- just to be clear. MR. RAPAWY: -- analytically, Your Honor, the point is -- the point is separate. I do think that there are substantive reasons for limiting the remedy to the fiduciary duty as well, and that goes -- and this is

24 discussed in the amicus brief by Professors Bray 25 and Smith that talk about the origins of the

Heritage Reporting Corporation

14

fiduciary or, rather, the accounting remedy, and 1 -- and explain that it is -- it is in some 2 3 respect equity forcing the fiduciary to do what 4 the fiduciary should have been doing in the 5 first place, which is to keep -- keep track of 6 the property that person is holding for someone 7 else, to make no profits on it, and to remit to 8 that person any -- any profits they had gained. 9 Those are substantive duties that do 10 not apply to everyone who is subject to the 11 securities laws. 12 JUSTICE ALITO: But how -- how 13 realistic do you think it is to assume that when Congress used this term "equitable relief," 14 15 Congress meant to incorporate every curlicue of 16 old equity jurisprudence? 17 MR. RAPAWY: My best answer to that, 18 Your Honor, is that this Court had given the phrase "equitable relief" in ERISA that meaning 19 20 six months before Congress passed this statute. 21 So, if Congress had wanted to know exactly what "equitable relief" meant in the 22 most recent precedent of this Court, in a 23 24 statute that I think has some similar structure 25 -- structural issues to this one, and I'd like

15

to get to those, they would have gone to 1 2 Great-West and they would have said, huh, okay, this -- they will look to history if we use 3 4 these words. 5 If we don't want them to look to 6 history, we should use other words. We should 7 use words, for example, such as they later used for the -- for the C -- CFTC where they said 8 equitable remedies and disgorgement and 9 10 restitution count as equitable remedies. They 11 would have enlarged it if they wanted to go beyond historical remedies, given the -- the 12 13 interpretation that this Court had -- has -- had 14 given those words so recently. 15 JUSTICE KAGAN: But, Mr. Rapawy, 16 Congress acted against a backdrop in which the 17 SEC was routinely seeking disgorgement, didn't 18 it? It did, Your Honor. 19 MR. RAPAWY: 20 However, I do not think that that supports the 21 government's position here for two reasons. 2.2 The first is that those cases, the 23 cases that form that backdrop were not 24 interpreting the text, not interpreting the 25 words, and so the prior construction canon by

16

1 its terms does not apply.

2 The second and perhaps more substantive reason is that the decisions in the 3 4 court -- in the circuit courts were not, 5 although there was -- there was a consensus that 6 the SEC could get something accounted as 7 disgorgement, there was not a consensus as to what the -- what that disgorgement was. 8 And I would point to two specific examples. 9 10 One is the Lipson case, which the 11 government cites in its brief as one of its consensus cases. That's a Seventh Circuit 12 13 decision by Judge Posner. It's earlier the same 14 year that Sarbanes-Oxley was enacted. And that 15 decision says that the relief in that case, the 16 disgorgement in that case, counted as equitable 17 relief under Section 21(d) only because it was 18 relief against a fiduciary. 19 So, if you think that Congress meant 20 to adopt the circuits, you would then have to

21 decide did it mean to adopt Judge Posner's view,
22 in which case we would be correct that only
23 fiduciaries are covered.

24 The second example that I would give25 you is the Fifth Circuit's decision in SEC

17

versus Blatt, and that was a decision in which
 it explicitly stated the money was going back to
 the investors.

And so, to the extent that what the government has sought to assert here is the authority to send the money to the Treasury, well, would Congress have looked to the decision in Blatt and said: Well, no, actually, the money, it looks like it would go back to the investors and not to the Treasury.

11 JUSTICE KAGAN: Well, that may raise the qualifications that Justice Alito was 12 13 talking about on what the disgorgement remedy would entail. But the basic understanding that 14 15 there was something that counted as -- as -- as that, that was in line with equitable powers, 16 17 isn't that a reasonable way to read the statute? 18 MR. RAPAWY: I don't think it is, Your 19 Honor, because I think it would leave too many 20 -- it would essentially leave this Court in the 21 position of deciding how the traditional remedy, which would not by its terms apply here, the 22 government agrees in its brief that SEC 23 24 disgorgement is a substantial departure from 25 historical norms.

18

How do you craft that historical 1 2 remedy in light of all the policies under the securities acts to -- to make sense here and 3 4 apply here? And I think that should be done by 5 the legislature in the first instance. 6 JUSTICE SOTOMAYOR: I'm sorry, but 7 they don't do it when they gave the SEC administrative authority for disgorgement. And 8 9 if we have an administrative order by the SEC, 10 we have to do exactly what you're telling us not 11 to do. We would have to define what they meant 12 by that. 13 And -- and so what's the difference 14 between doing it in that context, where Congress 15 has used the word disgorgement, and this 16 context, where we can presume or would presume 17 that there was something called disgorgement 18 that could have been restitution on -- or unjust enrichment or something else of that ilk? 19 20 MR. RAPAWY: Well, Your Honor, with 21 respect, I think in -- in the -- in the administrative context, they did. They gave the 22 23 SEC regulatory -- rule-making authority 24 concerning its disgorgement proceedings. 25 So that question is not going to go to

19

1	the courts in the first instance. It's going to
2	go to the agency in the first instance, and then
3	the agency will balance all the policy
4	considerations that I'm talking about.
5	But at least Congress has clearly said
6	you, agency, may do this, and you, agency, may
7	do this even if it's a punishment, I would I
8	would submit. And there are important
9	background principles that this Court should not
10	and and the courts in general should not say
11	an agency may do this where Congress has not
12	said so. And equally to the court the the
13	that the court should not say this person may
14	be punished where Congress has not said so.
15	And I would refer back in that context
16	to this Court's decision in Wallace versus
17	Cutten, one of the early administrative law
18	decisions, the Court's opinion through Justice
19	Brandeis, where the the agency in that case
20	had the authority to bar people from trading in
21	grain futures. But the language of the statute
22	permitted them to do it only for in cases of
23	ongoing violations. And they wanted to do it in
24	cases of past violations, effectively to serve
25	as a punishment for those past violations.

20

And the Court said we will not --1 Justice Brandeis for the Court said: We will 2 3 not enlarge the statute. We will not put something in that Congress has -- has not put 4 5 there to make punishable what the stat -- what 6 -- what -- by the terms of the statute -- I'm 7 not quoting exactly now but paraphrasing -- what 8 by the terms of the statute was only to be 9 prevented.

10 And I think that that is a principle 11 that ought to, you know, have some weight here 12 as the Court considers what to do. This 13 authority is being used by the agency to punish, 14 that their justification for it is punitive. 15 The Court's decision in Kokesh said that it is 16 punitive.

JUSTICE GINSBURG: But I believe you agreed with me that it's an equitable principle, that no one should profit from his or her own wrong. And I already suggested to you that it can be punishment in one context and it can be an equitable remedy in another context.

23 MR. RAPAWY: Yes, Justice Ginsburg,
24 but I would say that in -- I would refer back to
25 this Court's decision in Livingston, which

talked specifically about what counts as 1 2 punishment in terms of the equitable rule. And in that case, it's -- it's one of 3 4 the older patent cases, the special master had 5 imposed a remedy, a -- that -- that effectively 6 was what we probably would call a damages remedy 7 now. He allowed the -- the -- the patent owner 8 to recover from the infringer not what the 9 infringer actually did gain but what the 10 infringer might have gained. And he said the 11 measure is going to be -- because this person is 12 a trespasser and a wrongdoer, the -- the measure 13 of recovery is going to be what the -- the 14 patent owner lost, not what the infringer 15 qained. 16 And this Court said no, that is a 17 penalty that goes beyond the practices of 18 equity. We are aware of no rule that converts a court of equity into an institute for the 19 20 punishment of simple torts. 21 And I think with all -- with the greatest respect, when you take the principle 22 23 that no one can punish by their own -- no one

24 can benefit from their own wrong, excuse me, and 25 you decouple that from the historical context

and the historical remedies in which those rules would apply, and you turn it into something, as was done here, where it exceeds what the district court found to be the gross pecuniary gain and where it requires a payment to the Treasury, it has gone beyond the realm of -- of what equity would have recognized.

JUSTICE GINSBURG: Would it be -- I 8 9 thought there were efforts to get the money to 10 the investors. It doesn't require the money to 11 be paid into the Treasury. If the SEC can 12 locate the investors and get the money back to 13 them, the SEC says that's what it would do. 14 MR. RAPAWY: They -- they do that in 15 some cases, Your Honor. They do not do it in all cases. It is difficult from the public 16 17 materials to determine how often they do it and 18 how much money they do give back to investors. JUSTICE KAGAN: Well, suppose we were 19 20 to reject your broad argument and focus the 21 question on -- on this issue and also on the net 22 profits issue. 23 What constraints do you think the SEC

24 is under?

25 MR. RAPAWY: I'm sorry, Your Honor.

23

1 Constraints?

2 JUSTICE KAGAN: On the -- on the 3 question of giving money back to the investors, 4 I think Justice Ginsburg raised the issue about 5 maybe you can't find them, they're not 6 identifiable, there are too many of them. How -- what -- what do you think that 7 if -- if we -- if we said, you know, it's an 8 9 equitable principle that the money should go 10 back to the investors if possible, what does 11 that mean exactly that the SEC has to do? 12 MR. RAPAWY: I would say that if you 13 were to take that position and disagree with my 14 primary argument, it would -- then the -- the 15 rule should be, if you're giving the money back 16 to the investors, then you can take it and not 17 otherwise, because if you're not giving it back 18 to the investors, then it's just a punishment. JUSTICE KAGAN: So not otherwise, even 19 20 if like you -- you've tried to find the 21 investors and you can't? 2.2 MR. RAPAWY: Well, I mean, I don't 23 know that there's any way in which the Court 24 could workably police how hard they're trying, 25 Your Honor. And their --

24

1 JUSTICE KAGAN: Well, you know, make 2 -- make good-faith efforts; make, you know, 3 diligent efforts. What -- whatever words you 4 want to use. 5 MR. RAPAWY: I -- I mean, Your Honor 6 could certainly write that a decision -- in a 7 decision. I don't think it would be sufficient quidance or sufficient compulsion to the agency 8 9 to ensure that this was used for compensatory 10 purposes and not for punitory --11 JUSTICE GORSUCH: Counsel --CHIEF JUSTICE ROBERTS: How --12 13 JUSTICE GORSUCH: -- why -- why -- oh, 14 I'm sorry, Chief. 15 CHIEF JUSTICE ROBERTS: Excuse me. 16 How hard is that? Presumably, the investors 17 would want money, and I -- I suppose these 18 things could be done, you know, secretly or -but, if -- if the SEC is engaged in a proceeding 19 20 like this with respect to investments, I would 21 assume that investors should be pretty easy to 22 find if there's money available. 23 MR. RAPAWY: I -- I guess what I would say, Your Honor, is that the -- the -- in many 24 25 cases that they currently use the power, they

don't even believe that it's appropriate to
 return the money to investors. And I would
 point to the Foreign Corrupt Practices Act cases
 as the biggest example of that.

5 In theory, you know, could they find 6 They apparently do find it difficult in them? 7 many cases because, in many cases, the money goes to the Treasury, but there are many cases 8 9 in which it is currently applied under which 10 none of this rationale would -- would apply at all, including nine- and ten-figure recoveries 11 12 against private companies that are basically 13 just money taken from the investors and put to 14 the Treasury because they -- because that's how 15 they -- because they -- they want to use it as a 16 deterrent. They want to use it as a deterrent 17 and a punishment and to make an example out of 18 the violators of the securities laws.

JUSTICE GORSUCH: Counsel, in -- in -in equity and kind of paralleled in our class action practice today, we do police the efforts of the defendant to find and return money to the investors that he or she's defrauded. Sometimes there's some left over and -- and -- because people can't be found and we've had cases about

26

what to do with that money as well. 1 2 But why doesn't that supply at least a 3 ready quide and maybe make it impermissible for 4 the government to not make any effort at all or 5 -- but why can't we police it, assuming we 6 reject your primary argument? I guess that would go --7 MR. RAPAWY: 8 I would -- I'm not saying you couldn't draw an 9 analogy to the class action cases, Justice 10 Gorsuch. Clearly you could. I think at that 11 point --12 JUSTICE GORSUCH: And they come from 13 equity and traditional principles of equity, 14 right? I mean, they're drawn from that? 15 MR. RAPAWY: Under traditional 16 principles of equity, they couldn't recover 17 because there's no fiduciary here, Your Honor, 18 but --19 JUSTICE GORSUCH: I understand your 20 argument. 21 MR. RAPAWY: But -- but in the class 22 action context as a workable matter, you could, 23 but I really think that is getting to the point 24 where the Court is creating a new regulatory 25 scheme where one doesn't currently exist to save

a remedy that was originally created on the 1 2 basis of circuit court decisions that the government doesn't really defend anymore and 3 4 that the best course would be to say: This 5 remedy that the agency sought here does not 6 exist, and if -- if they think that they need 7 this remedy, they should go to Congress for it. 8 JUSTICE KAGAN: And may I ask you 9 about your net profits rule, a similar kind of 10 question? I mean, what does the SEC, in your view, have to deduct? 11 12 MR. RAPAWY: So, at a minimum, they 13 have to start from the right place, which is 14 they have to start from the gains to the 15 individual defendant rather than what they did in this case, which is starting from the losses 16 17 to investors. 18 And then I believe the standard that this Court -- if you're -- if you're going to go 19 20 by the accounting standard that's applied in --21 in the old patent cases, you would say it's you calculate the profits as a manufacturer 22 calculates the profits of his -- of their own 23 24 business. 25 So it would be certainly legitimate

28

1 expenses. Here, we had lease payments that 2 weren't disputed that were actual lease payments 3 and equipment payments that it wasn't disputed 4 it was actual equipment payment. And the 5 district court said: I'm not going to count any 6 of that essentially for punitive reasons. I 7 think you're bad guys. You had fraudulent intent from the start and so none of it counts. 8 9 JUSTICE BREYER: If the leases in the 10 machinery was just a printout, only used for 11 more fraudulent stuff, would you deduct it then? 12 I mean, what they did is they had fliers going 13 around saying invest in my fraudulent gold 14 company, the equivalent thereof. 15 MR. RAPAWY: Well, I suppose that --16 Then you'd deduct it? JUSTICE BREYER: 17 MR. RAPAWY: I'm sorry. 18 JUSTICE BREYER: Is that legitimate? 19 MR. RAPAWY: I think there may be a 20 certain point at which you could say -- I mean, 21 there's -- you could imagine a Ponzi scheme, Your Honor, and in the case of the Ponzi scheme, 22 23 okay, it's all tainted. 24 But I think that the decision below 25 did not give the kind of consideration you would

29

need to give before reaching that kind of 1 2 conclusion about these defendants, where --CHIEF JUSTICE ROBERTS: You -- finish 3 4 that sentence. 5 MR. RAPAWY: I'll wrap it up there, 6 Your Honor. 7 CHIEF JUSTICE ROBERTS: You may not want to -- okay. Thank -- thank you, counsel. 8 9 Mr. Stewart. 10 ORAL ARGUMENT OF MALCOLM L. STEWART 11 ON BEHALF OF THE RESPONDENT 12 MR. STEWART: Thank you, Mr. Chief 13 Justice, and may it please the Court: 14 I'd like to begin by discussing the 15 significance of Kokesh, and, as some of the questions have illuminated, the Court in Kokesh 16 17 said that SE -- disgorgement in SEC cases was a 18 penalty for purposes of a statute of limitations 19 provision. There's no reason to read the 20 decision more broadly. 21 And, in particular, the three reasons that the Court gave for concluding that it was a 22 23 penalty for these purposes don't -- they can't 24 map onto the criteria for determining whether 25 something is equitable relief. The three

30

characteristics that the Court identified were
 it's imposed as a consequence of violating a
 public law, it serves a deterrent purpose, and
 it's not compensatory.

5 And I'd say first that all three of 6 those characteristics were present in Kansas 7 versus Nebraska, in which this Court, sitting as a court of original jurisdiction, ordered 8 9 disgorgement in an interstate compact case. And 10 in that case, the Court emphasized that when the 11 interstate compact was ratified by Congress, it took on the character of a public law. And the 12 13 Court said the equitable power of a court of 14 equity is all the greater when the public 15 interest is concerned.

16 Second, the disgorgement remedy in 17 that case was intended only to serve deterrent 18 purposes. That was the whole justification for 19 the remedy, because, due to the fairly 20 idiosyncratic economic circumstances of the 21 parties, the special master concluded and the 22 Court agreed that a compensatory damages remedy would not be sufficient to deter future 23 24 violations. And so compensatory damages were 25 awarded, but the Court ordered disgorge --

31

partial disgorgement on top of that in order to
 ensure that there would be an adequate
 deterrent.

And for the same reason, the third 4 5 characteristic that the Court identified in 6 Kokesh, namely, that disgorgement in SEC cases 7 is not compensatory, was true in Kansas versus Nebraska as well. The disgorgement remedy was 8 9 ordered on top of the compensatory damages 10 award. That was deemed adequate to compensate 11 Kansas for its losses.

12 I'd like to turn next to the issue 13 that was taking up the discussion towards the 14 end of Mr. Rapawy's argument, which is the 15 formula by which the SEC urges that disgorgement 16 be calculated and courts ordinarily calculate 17 disgorgement in -- in fraud cases.

18 The Court in Kokesh cited the third 19 restatement of restitution and unjust enrichment 20 for the general rule that net profits are the 21 measure of disgorgement and that the defendant 22 is entitled to deduct its marginal costs.

Now the term "general rule" implies
that there will be exceptions. And if you look
at literally the next page of the restatement

32

from the one that the Court cited, the
 restatement says the defendant will not be
 allowed a deduction for the direct expenses of
 an attempt to defraud the claimant.

5 And so, for example, if part of your expenditures are, as Justice Breyer were -- was 6 7 hypothesizing, if part of your expenditures are 8 sending out fraudulent communications, false sales pitches that are intended to deceive 9 10 consumers in to -- to buying securities, that 11 would be the kind of expense that under 12 traditional equitable expenses -- under 13 traditional equitable principles would not be 14 allowed.

A second example. In Foreign Corrupt Practices cases -- Act cases, the wrong is that the defendant company has obtained a contract by paying a bribe to the public official, and the SEC would say, in those cases, the proper measure of disgorgement is net profits earned on the contract.

And so the defendant wouldn't be charged gross receipts. The defendant would be allowed to deduct its operating expenses, but we wouldn't allow the defendant to count the bribe

33

itself as a cost of doing business, as a
 deductible expense. That, in our view, wouldn't
 be allowed in computing the amount of
 disgorgement that would be ordered.

So the one thing that I would 5 6 emphasize most strongly is we are not -- as to 7 measure of disgorgement, we are not asking for an SEC-specific rule. We believe that the 8 9 arguments we've made in prior cases have been 10 consistent with traditional equitable principles 11 because, even though the general rule is that 12 you use net profits as the measure, that is 13 subject to exceptions. And we rely on the 14 exceptions in a variety of circumstances.

15 The second point I would make is, if 16 we're wrong, if in some instance or instances or 17 in some category of cases courts have been 18 awarding disgorgement in an amount that exceeds 19 what traditional equitable principles would 20 produce, then the correct answer is not to give 21 us everything and it's not to give us nothing. 2.2 It's that courts should continue to order 23 disgorgement but compute it in accordance with 24 traditional general equitable rules, not in 25 accordance with any SEC-specific formula.

34

1 JUSTICE SOTOMAYOR: But your -- your 2 position is, if I understand it correctly, follow whatever the common law rule was with 3 4 respect to calculating net profits, return it to 5 investors, but that you're also a victim and so 6 that you -- you could take the money ahead of 7 investors, that you can keep the leftover amounts? What -- what is your position with 8 9 respect to that broader question of who gets the 10 money? Why is it the Treasury? It's not the 11 SEC getting the money. And one could see if -- potentially an 12 13 argument that if the SEC got the money, it could 14 then spend it on protecting investors, but if 15 the Treasury's getting it -- and I know you're going to say money is fungible -- but, if the 16 17 Treasury is getting it, we don't really know if it's being used to help investors. 18 19 MR. STEWART: Let me say three or four 20 things in -- in response to that. The first is 21 that, as an empirical matter, the SEC tries to return the money to investors when it can, and 2.2 23 we're largely successful in doing that. 24 Now there is a category of cases like 25 the FCPA cases, the Foreign Corrupt Practices

35

1 Act cases, where sometimes we do get big 2 judgments. They're not returned to investors because there really is no obvious universe of 3 individual victims from an FCPA violation -- an 4 5 FCPA violation. But, in cases where individual 6 victims can be located and the money can be 7 distributed, it's our general practice to do so. The second thing is that --8 9 JUSTICE GORSUCH: Before you -- before 10 you leave that, I'm sorry to interrupt, but I --I thought last time around in Kokesh that the 11 12 representation from the government was different 13 on that score and that sometimes you do and 14 sometimes you don't. 15 I mean, sometimes it is MR. STEWART: 16 done and sometimes it is not done. Sometimes 17 the reason that it is not done is, as I was 18 saying with respect to the FCPA, there just is no obvious universe of investors. 19 20 Sometimes it's not done because it's a 21 fraud that involves bilking a very large number of investors out of a very small amount of money 2.2 23 each, and it's deemed infeasible to go to the 24 expense of locating the individuals given the 25 small amount that each would receive.

JUSTICE GORSUCH: Is it sometimes not 1 2 done just because it's not done? MR. STEWART: I -- I can't rule out 3 that possibility. I will say that this is at 4 5 the discretion of the court. Now the statute 6 doesn't require that it be forwarded to 7 investors in any particular category of cases, but this is at the court's discretion. 8 9 JUSTICE GORSUCH: Would the government 10 have any difficulty with a rule that the money 11 should be returned to investors where feasible? MR. STEWART: I would say if -- if 12 13 that is couched as a general equitable 14 principle; that is, the court is sitting as a 15 court of equity, there would be nothing wrong with a district judge in an individual case 16 17 saying unless you can persuade me that it is 18 infeasible to return this money to investors, I 19 am going to order that that be done. I don't 20 think that's typical practice, but --21 JUSTICE GORSUCH: I'm sorry, I didn't mean to interrupt from Justice Sotomayor's 22 23 question. I apologize. 24 MR. STEWART: No. And -- and so, yes, 25 there -- there is nothing in the statute that

37

precludes -- in individual cases where it seems to be feasible, there's nothing that would preclude the district court from insisting on that.

5 Now, as we pointed out in the brief, 6 the Dodd-Frank Act does have these -- I'm sorry, 7 the Dodd-Frank Act has these provisions that 8 identify permissible uses of money that is 9 disgorged in a judicial or administrative action 10 but is not ultimately forwarded to investors. 11 It can be used, for instance, to pay

12 whistleblowers.

13 And so the statute specifically 14 contemplates the possibility that disgorged 15 funds sometimes will not be distributed for what -- whatever reason. And it would really 16 17 undermine the statutory scheme to say that 18 distribution to investors is in all circumstances a prerequisite to disgorgement. 19 20 JUSTICE SOTOMAYOR: Why? If -- if --21 if the statute says that equitable relief that 22 may be appropriate or necessary for the benefit 23 of investors, do we have to say here and should 24 we say or not say here that that means if it's 25 not feasible to return it to investors, that

38

it's for the benefit of investors to give it to 1 2 the SEC? MR. STEWART: 3 I -- that statutory language, we think, and I want to explain why, 4 5 refers to measures that will benefit the 6 investor community generally, not necessarily 7 the particular individual victims. 8 And I'd give the following reasons. 9 The first is that language applies to equitable 10 relief generally under Section 21(d)(5). And so, if you imagine a court contemplating an 11 12 injunction, it would obviously be a very 13 constrained view of the court's injunctive 14 authority in an SEC enforcement action to say 15 that the court can only issue an injunction that will benefit the particular individuals who have 16 17 been victimized. 18 JUSTICE GORSUCH: But if we can get back to the money, which is where we're at, not 19 20 injunctive relief. I -- I -- I just want to --21 I would like an answer to Justice Sotomayor's question, which is, if -- if it's feasible, on 22 23 what account should the government not be in the 24 business of returning the money, given -- given 25 the statement in the statute that we're supposed

39

to be following equitable principles here? 1 MR. STEWART: I -- I -- I --2 JUSTICE GORSUCH: I take that to be 3 4 her point or her question to you, and -- and I 5 would appreciate an answer to that. MR. STEWART: I -- I -- I don't -- I 6 7 don't see a problem with saying it is appropriate or necessary only if it is forwarded 8 to investors if it is feasible to do that. 9 The 10 point I was making about the -- the 11 whistleblowers and such was Congress clearly 12 didn't think that a disgorgement award could be 13 appropriate or necessary only if it was 14 forwarded to investors, because it made specific 15 provision for the circumstance in which 16 disgorged funds were left over. 17 The -- the other point I'd like to 18 address, and Mr. --JUSTICE KAVANAUGH: Can I make sure 19 20 I'm clear on your answer to Justice Gorsuch and 21 Justice Sotomayor? Because the first time you answered it, you said it would be appropriate 22 23 for a district court to say that. 24 And I think Justice Gorsuch then 25 followed up and Justice Sotomayor. Would it be

40

appropriate for this Court to say that's the 1 2 rule; namely, that it has to be returned to investors where feasible? 3 MR. STEWART: I -- I -- I wouldn't 4 5 have a problem with that. I mean, I don't know that it is kind of in accordance with usual 6 7 principles for the Court to announce that sort of instruction, but it would be consistent with 8 9 the SEC's practice. It would certainly be 10 directing the district courts to do something 11 that they could do already as an exercise of their equitable discretion. 12 13 The only other thing I would say is 14 it's common ground that the SEC is authorized to 15 impose disgorgement administratively, and its 16 decisions are reviewable, but they're reviewed 17 under a more deferential standard. 18 And so the Court reviewing an SEC 19 disgorgement order is not going to be asking was 20 this a correct exercise of equitable discretion, 21 just was it within the range of reasonableness. 2.2 JUSTICE GINSBURG: The --23 MR. STEWART: The other thing I wanted 24 to say that I -- I think is -- I'm sorry, 25 Justice Ginsburg.

41

1 JUSTICE GINSBURG: Well, you -- you 2 were talking about the administrative authority 3 to order disgorgement, but you said that an 4 admin -- an ALJ can't do what a court could do, 5 as it did in this case, order an asset freeze. 6 But couldn't you take the 7 administrative decision and ask a court to enforce that decision by freezing assets? 8 9 MR. STEWART: I mean, we sometime --10 we sometimes do, after issuing an administrative order, go to a court for enforcement if the 11 12 defendant is not obeying, and I think one of the 13 reasons that the SEC sometimes elects to proceed 14 in court originally is if we have doubts about 15 the defendant's compliance and we think we're going to be in court anyway, then we might want 16 17 to save a step and go there first. 18 I guess part of our response to the arguments about could we do this 19 20 administratively are to the effect that it 21 wouldn't be entirely unworkable. It would be better than no alternative at all, but there's 2.2 23 no reason for the Court to set up an incentive 24 that creates an artificial -- a system that 25 creates an artificial incentive for us to

42

proceed in that way, since the defendant will receive additional proceed -- protections if the case is in court.

4 The -- the other thing I would say 5 that I -- I think is at least in part respective 6 -- responsive to Justice Sotomayor's question 7 and -- and also responds to something that Mr. Rapawy said, he -- he characterized the 8 9 government as having conceded that our 10 disgorgement is a substantial departure from 11 historical norms. And that -- that's not really what we said. 12

13 In the last paragraph of our brief, 14 the point we were trying to make was that you 15 look back at the 19th century cases in which 16 disgorgement was ordered, and they all involved awards to individual victims. That wasn't 17 18 because there was a large body of law saying you 19 couldn't award disgorgement to the government. 20 It was simply because, until the middle part of 21 the 20th century, civil enforcement actions 22 filed by federal regulatory agencies were not a 23 thing, and so the question didn't come up one 24 way or the other.

```
25 And when those types of actions
```

started to become prevalent, courts had to -- to grapple with questions about how do legal principles that were developed in the context of private suits map onto government enforcement actions?

And in 1950, somebody could have 6 7 argued very plausibly that it just doesn't make 8 sense to order disgorgement to the government 9 because the essence of disgorgement has always 10 been payment to the wronged entity. You could 11 also have made a strong argument on the other 12 side that the core purposes of disgorgement are 13 to prevent the wrongdoer from profiting from its 14 own wrong and thereby to deter future 15 violations, and disgorgement can serve those traditional purposes, regardless of where the 16 money ends up. 17

18 And as of 1850, that was an open 19 question. By the time that Congress enacted 20 Section 21(d)(5) in 2002, that question had 21 really been resolved, because this Court in Porter and Mitchell had said the federal courts' 22 23 equitable powers are at their height when the 24 public interest is involved. For 30 years, 25 courts in SEC enforcement actions had been

awarding disgorgement. Congress had passed 1 2 statutory provisions that pre- -- both presuppose the availability of disgorgement in 3 4 SEC judicial proceedings and that authorized the 5 SEC to impose disgorgement administratively. 6 And so whatever else you -- whatever 7 other lessons you might derive from the decision to authorize this to be done at administrative 8 proceedings, clearly, Congress didn't think that 9 10 there was anything incongruous about the idea of 11 disgorgement going to the government, disgorgement going in an SE -- in a government 12 13 enforcement action. 14 And so, when Congress passed 15 Section 21(d)(5) in 2002, if you were asking kind of a conscientious well-informed member of 16 17 Congress what do you think you are authorizing 18 when you authorize district courts to issue 19 appropriate -- equitable relief that may be 20 appropriate or necessary, the first thing they 21 would ask is, what kind of equitable relief have courts been awarding up to this point? 22 For -- for instance, when you get 23 statutes where -- that authorize a court to 24 25 issue an injunction in accordance with the

principles of equity, how do you decide whether a particular injunction is in accordance with the principles of equity? You look at the way that equity courts have been doing it in the past.

6 And the lesson the Court has drawn is 7 you look to factors like adequacy of the remedy 8 at law, irreparable injury, a grant of authority 9 to proceed in accordance with the principles of 10 equity, is basically an admonition, keep doing 11 it the way that courts of equity have been doing 12 it.

13 And, similarly, in 2002, a 14 conscientious member of Congress would have 15 thought, at the very least, I'm authorizing 16 courts to continue to enter the equitable 17 remedies that they have entered up to that 18 point. And that was buttressed by the other 19 provision of the Sarbanes-Oxley Act in -- in 20 2002 that we've emphasized in our brief, which 21 was the fair funds provision that establishes a 22 mechanism to facilitate the distribution to investors of funds that are disgorged in a 23 24 judicial or administrative proceeding. And it 25 also authorizes civil penalties to be added to

46

1 those funds.

2	JUSTICE BREYER: What is your answer
3	what is your response to the argument, if I
4	have it right, that in equity, the closest thing
5	is restitution, and in Great-West, the majority
6	said: Well, restitution was an equitable remedy
7	when it was a case in equity, but it was a legal
8	remedy when it was a case in law?
9	MR. STEWART: Well, I think what
10	Great-West was dealing with specifically was
11	JUSTICE BREYER: A different thing. I
12	agree with that, but there's this statement
13	there that restitution just what I said.
14	MR. STEWART: Let me say two things in
15	response to that. The the first, Great-West
15 16	response to that. The the first, Great-West was dealing with a breach of contract action,
	-
16	was dealing with a breach of contract action,
16 17	was dealing with a breach of contract action, and so the Court in Great-West said that, in
16 17 18	was dealing with a breach of contract action, and so the Court in Great-West said that, in breach in breach-of-contract suits, if the
16 17 18 19	was dealing with a breach of contract action, and so the Court in Great-West said that, in breach in breach-of-contract suits, if the contract calls for party A to pay money to party
16 17 18 19 20	was dealing with a breach of contract action, and so the Court in Great-West said that, in breach in breach-of-contract suits, if the contract calls for party A to pay money to party B, a suit seeking to compel A to pay the money
16 17 18 19 20 21	<pre>was dealing with a breach of contract action, and so the Court in Great-West said that, in breach in breach-of-contract suits, if the contract calls for party A to pay money to party B, a suit seeking to compel A to pay the money to B had historically been regarded as seeking</pre>
16 17 18 19 20 21 22	<pre>was dealing with a breach of contract action, and so the Court in Great-West said that, in breach in breach-of-contract suits, if the contract calls for party A to pay money to party B, a suit seeking to compel A to pay the money to B had historically been regarded as seeking legal relief, not equitable relief.</pre>

47

not considered inherently equitable, but courts of equity could sometimes award them as a matter ancillary to their equitable jurisdiction. And the Court said, at least under ERISA, that's not what equitable relief meant.

6 I -- I don't think disgorgement can 7 really be portrayed in that way. I mean, 8 obviously, in Kansas versus Nebraska, the Court 9 ordered disgorgement as -- treated disgorgement 10 as inherently equitable relief. And one sign 11 that it regarded disgorgement as equitable rather than legal was it said it is an 12 13 appropriate exercise of authority to enter 14 partial disgorgement. Yes, we would have 15 authority to issue -- require the defendant to 16 hand over the full amount of its profits, but, 17 under the circumstances of the case, we think an 18 adequate deterrent purpose would be served by requiring Nebraska to hand over a fraction of 19 20 its profits but far from the whole. 21 That -- that's the kind of equitable

22 discretion that the -- that's the kind of 23 discretionary judgment that is inherent in 24 equity.

25 The other thing I would say about

48

1 Mr. Rapawy's argument with respect to Livingston 2 and the patent cases, I mean, before the Court 3 had specific statutory authority to do so, in 4 cases like Livingston, the Court held that a 5 defendant's profits were the -- were an 6 appropriate element of relief in a patent 7 infringement suit. And the defendant was not 8 acting as a fiduciary or trustee; the defendant 9 was simply committing a wrong using an invention 10 in which the plaintiff had a property right, and 11 that was found to be an appropriate element of 12 relief. And the Court in Livingston said it is 13 not permissible for a court of equity to also 14 award interest because that would be a penalty. 15 Now I think our legal system regards 16 interest differently than it did back in the 17 day, but I think the general principle from 18 Livingston remains sound. That is, if a court 19 were to compute disgorgement in accordance with 20 traditional equitable principles, both the 21 general rule that net profits are the measure and any established equitable exceptions to that 22 23 rule, if the court computed its -- a 24 disgorgement award in that manner and then said

25 I'm tacking on another 50 percent because your

49

behavior was so egregious, we would agree that 1 2 that would be a penalty. That would be 3 something that would not be an appropriate 4 exercise of equitable authority under 5 Section 21(d)(5). It -- it could still be done in the 6 SEC cases, because the Congress has authorized 7 8 civil penalties in addition to equitable relief, 9 but it could not be justified as an exercise of 10 equitable authority. But that's not what --11 what's being done in this case. 12 JUSTICE GINSBURG: What do you do with 13 the Ninth Circuit saying there were no 14 legitimate expenses to -- to deduct, to arrive 15 at net profit? 16 MR. STEWART: I -- they -- they 17 allowed us a very small deduction for the amount 18 that remained in the corporate account and could be distributed to investors, and, certainly, 19 20 that would always be an appropriate deduction, 21 any -- any benefit that the investors received 22 at the end of the day. 23 But there were basically two 24 categories of expenses that the Ninth Circuit 25 and the district court didn't allow. One was

50

for the overseas marketing attempts. And I
think that was simply the -- the type of expense
that Justice Breyer was talking about. This was
money spent to perpetrate the fraud, money spent
to try to induce other investors to pay their
money into what was an -- essentially a fraud -pervasively a fraudulent scheme.

8 The other was Mr. Rapawy is correct 9 that some of the money was spent on things like 10 equipment, facilities, things that in another 11 context might have qualified as legitimate 12 business expenses had there been a true intent 13 to construct a cancer treatment facility and do 14 what the marketer said they were going to do. 15 What the district court said -- and I

believe this is on page 18a of the Petition Appendix -- it characterized those expenses as a half-hearted attempt to convey the illusion of progress.

And so the court's analysis on that point was not extensive, but -- but we take the point to have been these were not legitimate business expenses because they didn't represent a true good-faith effort to construct the relevant facility. They simply represented an

effort to fool investors into thinking that 1 2 things were going along as planned. And those -- those findings were 3 4 certainly subject to being reviewed on appeal. We would agree that, had the investors had it in 5 6 their minds to construct the facility and it 7 just didn't pan out at the end of the day, those would have been the sorts of things that could 8 have been used as deductions. 9 10 But given the conclusion of the lower courts that this was a pervasively fraudulent 11 12 scheme in which essentially all of the expenses 13 were made to perpetrate the fraud, then we think 14 it's in accordance with traditional equitable 15 principles to allow no deductions. 16 But, again, the point we had stressed 17 most strongly is we think that Congress has 18 authorized courts to award disgorgement as 19 computed under traditional rules of equity. 20 If in a particular case or even if in 21 some larger category of cases the Court believes that exorbitant disgorgement has been awarded, 22 23 then the proper response is be more careful 24 about -- to tell lower courts be more careful 25 about the computation.

52

It -- it couldn't under any 1 2 circumstances be a justification for holding 3 that Congress has not authorized disgorgement at 4 all. 5 If there -- there are no further questions, we would urge the Court to affirm. 6 7 CHIEF JUSTICE ROBERTS: Thank you, 8 counsel. 9 Four minutes, Mr. Rapawy. 10 REBUTTAL ARGUMENT OF GREGORY G. RAPAWY 11 ON BEHALF OF THE PETITIONERS 12 MR. RAPAWY: Thank you, Your Honor. I 13 will be brief. 14 On the question of Kansas versus 15 Nebraska, I believe that the Court was 16 explicitly in that case exercising its authority 17 in the singular sphere of interstate relations 18 to craft a new remedy. It was not applying 19 traditional equitable principles. 20 There was a dispute between the 21 majority and the dissent about whether it was 22 appropriate to adopt Section 39 of the third 23 restatement, but, either way, that was a case of 24 the Court making a new remedy that did not 25 previously historically exist.

53

And that would not be appropriate to 1 2 do here, where you are interpreting a statute in which Congress has already set forth a detailed 3 remedial scheme. 4 5 On the question of the calculation of the individuals -- of the amounts of 6 7 disgorgement, there are explicit findings in this record as to the gross pecuniary gain to 8 each individual. It's 6.7 for Mr. Liu and it is 9 10 1.5 million for -- for Ms. Wang. 11 And if you are applying the 12 traditional historical approach, you would start 13 at the gain to each defendant -- to each 14 defendant. You wouldn't start at the total 15 losses to investors and take deductions from 16 there. And I think that goes to show how far 17 the -- the -- both -- both what happened in this 18 individual case and also how far the analysis that's going on here is from the historical 19 20 approach. 21 I think the scope of disgorgement has grown over time in part because it is not 22 23 grounded in statutory text, and that counsel's 24 for returning it to Congress rather than 25 crafting a new remedy and -- and -- by -- as a

54

sort of adapting equitable principles. 1 2 I think its practical function has 3 been to compel payments to the Treasury. There 4 is no historical precedent for that. I would 5 cite to the Court's Gabelli case, in which the 6 Court found that there was no precedent for 7 applying the equitable doctrine of the discovery 8 rule to -- to cases by the government. 9 So, too, here, there's no precedent 10 for using an accounting to compel funds be paid 11 to the Treasury. 12 Finally --13 JUSTICE GINSBURG: What -- what about 14 the statutes that assume the availability of 15 disgorgement? Those statutes would have no work 16 to do if -- if the Court can order disgorgement 17 absent express statutory authority? 18 MR. RAPAWY: We tried to show in our opening brief, Your Honor, that -- that most of 19 20 those statutes do have some work to do. There 21 are one or two that don't. 2.2 Even in those cases, I would say that 23 those statutes at most reflect a presupposition 24 or awareness by Congress that courts were doing 25 this, not an authorization, and authorization is

what's needed to authorize -- to inflict a 1 2 penalty. 3 Finally, if the Court does conclude 4 that some remedy may survive -- may survive in 5 some case, I would urge it, nevertheless, to 6 reverse and not to remand in this case. 7 These individuals have already been 8 ordered to pay their entire gross pecuniary 9 gains, and anything above and beyond that would 10 go beyond the equitable principle that no 11 individual should be -- should be permitted to profit from his or her own wrong. 12 13 And with that, Your Honors, I would 14 respectfully request the Court reverse. 15 CHIEF JUSTICE ROBERTS: Thank you, 16 counsel. The case is submitted. (Whereupon, at 12:18 p.m., the case 17 18 was submitted.) 19 20 21 22 23 24 25
