(f) DEFINITIONS.—In this section:

(1) The term “net zero water usage”, with respect to a military installation or installation activity, means a situation in which the combination of limitations on the consumption of water resources and the return of water to an original water source by the installation or activity is sufficient to prevent any reduction in the water resources of the area in both quantity and quality over a reasonable period of time.

SEC. 6215. FINANCIAL SERVICES DE-RISKING.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) providing vital humanitarian and development assistance and protecting the integrity of the international financial system are complementary goals;

(2) nonprofit organizations based in the United States with international activities often face difficulties with financial access, most commonly the inability to send funds internationally through transparent, regulated financial channels;

(3) without access to timely and predictable banking services, nonprofit organizations, including international development organizations, cannot carry out essential humanitarian activities critical to the survival of those in affected communities;

(4) similar access issues are a concern for other underserved individuals and entities such as those sending remittances from the United States to their families overseas and certain domestic and overseas jurisdictions that have experienced curtailed access to cross-border financial services due, in part, to de-risking;

(5) the financial exclusion caused by de-risking can ultimately drive money into less transparent, shadow channels through the carrying of cash or use of unlicensed or unregistered money service remitters, thus reducing transparency and traceability, which are critical for financial integrity, and can increase the risk of money falling into the wrong hands;

(6) effective measures are needed to stop the flow of illicit funds and promote the goals of anti-money laundering and countering the financing of terrorism and sanctions regimes;

(7) anti-money laundering, countering the financing of terrorism, and sanctions policies are needed that do not unduly hinder or delay the efforts of legitimate humanitarian organizations in providing assistance to—

(A) meet the needs of civilians facing a humanitarian crisis, including enabling governments and humanitarian organizations to provide them with timely access to food, health, and medical care, shelter, and clean drinking water; and

(B) prevent or alleviate human suffering, in keeping with requirements of international humanitarian law;

(8) anti-money laundering, countering the financing of terrorism, and sanctions policies must ensure that the policies do not unduly hinder or delay legitimate access to the international financial system for underserved individuals, entities, and geographic areas;

(9) policies that ensure that incidental, inadvertent benefits that may indirectly benefit a designated group in the course of delivering life-saving aid to civilian populations are not the primary focus of Federal Government enforcement efforts;

(10) policies that encourage financial inclusion, particularly of underserved populations, must remain a priority; and

(11) laws, regulations, policies, guidance, and other measures that ensure the integrity of the financial system through a risk-based approach should be prioritized.

(b) GAO DE-RISKING ANALYSIS.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States shall conduct an analysis and submit to Congress a report on financial services de-risking.

(2) CONTENTS.—The analysis required under paragraph (1) shall—

(A) rely substantially on information obtained through prior de-risking analyses conducted by the Comptroller General of the United States;

(B) consider the many drivers of de-risking as identified by the Financial Action Task Force, including profitability, reputational risk, lower risk appetites of banks, regulatory burdens and unclear expectations, and sanctions regimes; and

(C) identify options for financial institutions handling transactions or accounts for high-risk categories of clients and for minimizing the negative effects of anti-money laundering and countering the financing of terrorism requirements on such individuals and entities and on certain high-risk geographic jurisdictions, without compromising the effectiveness of Federal anti-money laundering and countering the financing of terrorism requirements.

(c) REVIEW OF DE-RISKING.—

(1) DEFINITION.—In this subsection, the term “de-risking” means actions taken by a financial institution to terminate, fail to initiate, or restrict a business relationship with a customer, or a category of customers, rather than manage the risk associated with that relationship consistent with risk-based supervisory or regulatory requirements, due to drivers such as profitability, reputational risk, lower risk appetites of banks, regulatory burdens or unclear expectations, and sanctions regimes.

(2) REVIEW.—Upon completion of the analysis required under subsection (b), the Secretary, in consultation with the Federal functional regulators, State bank supervisors, State credit union supervisors, and appropriate public- and private-sector stakeholders shall—

(A) undertake a formal review of the financial institution reporting requirements, as in effect on the date of enactment of this Act, including the processes used to submit reports under the Bank Secrecy Act, regulations implementing the Bank Secrecy Act, examination standards related to the Bank Secrecy Act, and related guidance; and

(B) propose changes, as appropriate, to those requirements and examination standards described in paragraph (1) to reduce any unnecessarily burdensome regulatory requirements and ensure that the information provided fulfills the purpose described in section 5311 of title 31, United States Code, as amended by this division.

(3) CONTENTS.—The review required under paragraph (2) shall—

(A) rely substantially on information obtained through the de-risking analyses conducted by the Comptroller General of the United States; and

(B) consider—

(i) any adverse consequence of financial institutions de-risking entire categories of relationships, including charities, embassy accounts, money services businesses, as defined in section 1010.100 of title 31, Code of Federal Regulations, or a successor regulation, agents of the financial institutions, countries, international and domestic regions, and respondent banks;

(ii) the reasons why financial institutions are engaging in de-risking, including the role of domestic and international regulations, standards, and examinations;

(iii) the association with and effects of de-risking on money laundering and financial crime actors and activities;

(iv) the most appropriate ways to promote financial inclusion, particularly with respect to developing countries, while maintaining compliance with the Bank Secrecy Act, including an assessment of policy options to—

(I) more effectively tailor Federal actions and penalties to the size of foreign financial institutions and any capacity limitations of foreign governments; and

(II) reduce compliance costs that may lead to the adverse consequences described in clause (i);

(v) formal and informal feedback provided by examiners that may have led to de-risking;

(vi) the relationship between resources dedicated to compliance and overall sophistication of compliance efforts at entities that may be experiencing de-risking, especially compared to those that have not experienced de-risking;

(vii) best practices from the private sector that facilitate correspondent banking relationships; and

(viii) other matters that the Secretary determines are appropriate.

(4) STRATEGY ON DE-RISKING.—Upon the completion of the review required under this subsection, the Secretary of the Treasury, in consultation with the Federal functional regulators, State bank supervisors, State credit union supervisors, and appropriate public- and private-sector stakeholders, shall develop a strategy to reduce de-risking and adverse consequences related to de-risking.

(5) REPORT.—Not later than 1 year after the completion of the analysis required under subsection (b), the Secretary shall submit to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate a report containing—

(A) all findings and determinations made in carrying out the review required under this subsection; and

(B) the strategy developed under paragraph (4).

SEC. 6216. REVIEW OF REGULATIONS AND GUIDANCE.

(a) IN GENERAL.—The Secretary, in consultation with the Federal functional regulators, the Financial Institutions Examination Council, the Attorney General, Federal law enforcement agencies, the Director of National Intelligence, the Secretary of Homeland Security, and the Commissioner of Internal Revenue, shall—

(1) undertake a formal review of the regulations implementing the Bank Secrecy Act and guidance related to that Act—

(A) to ensure the Department of the Treasury provides, on a continuing basis, for appropriate safeguards to protect

the financial system from threats, including money laundering and the financing of terrorism and proliferation, to national security posed by various forms of financial crime;

(B) to ensure that those provisions will continue to require certain reports or records that are highly useful in countering financial crime; and

(C) to identify those regulations and guidance that—

(i) may be outdated, redundant, or otherwise do not promote a risk-based anti-money laundering compliance and countering the financing of terrorism regime for financial institutions; or

(ii) do not conform with the commitments of the United States to meet international standards to combat money laundering, financing of terrorism, serious tax fraud, or other financial crimes; and

TITLE LXIV—ESTABLISHING BENEFICIAL OWNERSHIP INFORMATION REPORTING REQUIREMENTS

Sec. 6401. Short title.

Sec. 6402. Sense of Congress.

Sec. 6403. Beneficial ownership information reporting requirements.

SEC. 6401. SHORT TITLE.

This title may be cited as the “Corporate Transparency Act”.

SEC. 6402. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) more than 2,000,000 corporations and limited liability companies are being formed under the laws of the States each year;

(2) most or all States do not require information about the beneficial owners of the corporations, limited liability companies, or other similar entities formed under the laws of the State;

(3) malign actors seek to conceal their ownership of corporations, limited liability companies, or other similar entities in the United States to facilitate illicit activity, including money laundering, the financing of terrorism, proliferation financing, serious tax fraud, human and drug trafficking, counterfeiting, piracy, securities fraud, financial fraud, and acts of foreign corruption, harming the national security interests of the United States and allies of the United States;

(4) money launderers and others involved in commercial activity intentionally conduct transactions through corporate structures in order to evade detection, and may layer such structures, much like Russian nesting “Matryoshka” dolls, across various secretive jurisdictions such that each time an investigator obtains ownership records for a domestic or foreign entity, the newly identified entity is yet another corporate entity, necessitating a repeat of the same process;

(5) Federal legislation providing for the collection of beneficial ownership information for corporations, limited liability companies, or other similar entities formed under the laws of the States is needed to—

(A) set a clear, Federal standard for incorporation practices;

(B) protect vital United States national security interests;

(C) protect interstate and foreign commerce;

(D) better enable critical national security, intelligence, and law enforcement efforts to counter money laundering, the financing of terrorism, and other illicit activity; and

(E) bring the United States into compliance with international anti-money laundering and countering the financing of terrorism standards;

(6) beneficial ownership information collected under the amendments made by this title is sensitive information and will be directly available only to authorized government authorities, subject to effective safeguards and controls, to—

(A) facilitate important national security, intelligence, and law enforcement activities; and

(B) confirm beneficial ownership information provided to financial institutions to facilitate the compliance of the financial institutions with anti-money laundering, countering the financing of terrorism, and customer due diligence requirements under applicable law;

(7) consistent with applicable law, the Secretary of the Treasury shall—

(A) maintain the information described in paragraph (1) in a secure, nonpublic database, using information security methods and techniques that are appropriate to protect nonclassified information systems at the highest security level; and

(B) take all steps, including regular auditing, to ensure that government authorities accessing beneficial ownership information do so only for authorized purposes consistent with this title; and

(8) in prescribing regulations to provide for the reporting of beneficial ownership information, the Secretary shall, to the greatest extent practicable consistent with the purposes of this title—

(A) seek to minimize burdens on reporting companies associated with the collection of beneficial ownership information;

(B) provide clarity to reporting companies concerning the identification of their beneficial owners; and

(C) collect information in a form and manner that is reasonably designed to generate a database that is highly useful to national security, intelligence, and law enforcement agencies and Federal functional regulators.

SEC. 8106. SENSE OF THE CONGRESS ON NEED FOR NEW GREAT LAKES ICEBREAKER.

(a) FINDINGS.—The Congress finds the following:

(1) The Great Lakes shipping industry is crucial to the American economy, including the United States manufacturing base, providing important economic and national security benefits.

(2) A recent study found that the Great Lakes shipping industry supports 237,000 jobs and tens of billions of dollars in economic activity.

(3) United States Coast Guard icebreaking capacity is crucial to full utilization of the Great Lakes shipping system, as during the winter icebreaking season up to 15 percent of annual cargo loads are delivered, and many industries would have to reduce their production if Coast Guard icebreaking services were not provided.

(4) 6 of the Coast Guard's 9 icebreaking cutters in the Great Lakes are more than 30 years old and are frequently inoperable during the winter icebreaking season, including those that have completed a recent service life extension program.

(5) During the previous 10 winters, Coast Guard Great Lakes icebreaking cutters have been inoperable for an average of 65 cutter-days during the winter icebreaking season, with this annual lost capability exceeding 100 cutter days, with a high of 246 cutter days during the winter of 2017–2018.

(6) The 2019 ice season provides further proof that current Coast Guard icebreaking capacity is inadequate for the needs of the Great Lakes shipping industry, as only 6 of the 9 icebreaking cutters are operational, and millions of tons of cargo was not loaded or was delayed due to inadequate Coast Guard icebreaking assets during a historically average winter for Great Lakes ice coverage.

(7) The Congress has authorized the Coast Guard to acquire a new Great Lakes icebreaker as capable as Coast Guard Cutter *Mackinaw* (WLBB-30), the most capable Great Lakes icebreaker, and \$10 million has been appropriated to fund the design and initial acquisition work for this icebreaker.

(8) The Coast Guard has not initiated a new acquisition program for this Great Lakes icebreaker.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress of the United States that a new Coast Guard icebreaker as capable as Coast Guard Cutter *Mackinaw* (WLBB-30) is needed on the Great Lakes, and the Coast Guard should acquire this icebreaker as soon as possible.

(b) REPORT.—Not later than 30 days after the date of the enactment of this Act, the Commandant shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a plan for acquiring an icebreaker as required by section 820(b) of the Frank LoBiondo Coast Guard Authorization Act of 2018 (Public Law 115–282).

Representatives, and the Committees on Commerce, Science, and Transportation and Armed Services of the Senate a report on—

(1) the extent to which specifications, key drawings, and detail design for the Polar Security Cutter are complete before the start of construction;

(2) the extent to which Polar Security Cutter hulls numbers one, two, and three are science ready; and

(3) what actions will be taken to ensure that Polar Security Cutter hull number four is science capable, as described in the National Academies of Sciences, Engineering, and Medicine’s Committee on Polar Icebreaker Cost Assessment letter report entitled “Acquisition and Operation of Polar Icebreakers: Fulfilling the Nation’s Needs” and dated July 11, 2017.

Subtitle C—Arctic

SEC. 8421. COAST GUARD ARCTIC PRIORITIZATION.

(a) FINDINGS.—Congress makes the following findings:

(1) The strategic importance of the Arctic continues to increase as the United States and other countries recognize the military significance of the sea lanes and choke points within the region and understand the potential for power projection from the Arctic into multiple regions.

(2) Russia and China have conducted military exercises together in the Arctic, have agreed to connect the Northern Sea Route, claimed by Russia, with China's Maritime Silk Road, and are working together in developing natural gas resources in the Arctic.

(3) The economic significance of the Arctic continues to grow as countries around the globe begin to understand the potential for maritime transportation through, and economic and trade development in, the region.

(4) Increases in human, maritime, and resource development activity in the Arctic region may create additional mission requirements for the Department of Defense and the Department of Homeland Security.

(5) The increasing role of the United States in the Arctic has been highlighted in each of the last four national defense authorization acts.

(6) The United States Coast Guard Arctic Strategic Outlook released in April 2019 states, "Demonstrating commitment to operational presence, Canada, Denmark, and Norway have made strategic investments in ice-capable patrol ships charged with national or homeland security missions. The United States is the only Arctic State that has not made similar investments in ice-capable surface maritime security assets. This limits the ability of the Coast Guard, and the Nation, to credibly uphold sovereignty or respond to contingencies in the Arctic."

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Arctic is a region of strategic importance to the national security interests of the United States, and the Coast Guard must better align its mission prioritization and development of capabilities to meet the growing array of challenges in the region;

(2) the increasing freedom of navigation and expansion of activity in the Arctic must be met with an increasing show of Coast Guard forces capable of exerting influence through persistent presence;

(3) Congress fully supports the needed and important recapitalization of the fleet of cutters and aircraft of the Coast Guard, but, the Coast Guard must avoid overextending operational assets for remote international missions at the cost of dedicated focus on this domestic area of responsibility with significant international interest and activity; and

(4) although some progress has been made to increase awareness of Arctic issues and to promote increased presence in the region, additional measures are needed to protect vital economic, environmental, and national security interests of the United States, and to show the commitment of the United

States to this emerging strategic choke point of increasing great power competition.

(c) **ARCTIC DEFINED.**—In this section, the term “Arctic” has the meaning given that term in section 112 of the Arctic Research and Policy Act of 1984 (15 U.S.C. 4111).
